ABOUT BROADPEAK

We connect global technology solution providers with the high-growth markets, everyone else finds hard to reach.

BroadPeak International is a value driven IT distributor across the Middle-East, and emerging Asian markets. Beyond fulfilment, we provide pre-sales engineering, logistics, and post-sale support that help our partners win and deliver with confidence.

OUR DIFFERENCE

Why partner with us?

Six reasons vendors and partners keep climbing with us.

Regional expertise

Deep market insight and in-country teams across Gulf, Africa & Emerging Asia.

Pre-sales

Certified engineers supporting design, configurations and POCs.

Incremental business

We open markets and accounts vendors can’t reach directly.

Operations & logistics

Experienced teams managing import, compliance, and delivery in complex markets.

Post-sale support

Responsive customer service and support long after the deal closes.

Trusted relationships

Partnerships built on trust, transparency, and long-term growth.

VALUE PROPOSITION

What we bring to each side

Technology vendors

- A trusted route into high-growth markets that are hard to serve directly
- In-country presence, channel development, and demand generation
- Compliant importation, logistics, and local fulfilment
- Market intelligence and pipeline visibility direct from the ground

Channel partners

- Access to leading global vendor lines under one relationship
- Presales engineering, solution design, and bid support
- Competitive commercial terms and reliable availability
- Training, enablement, and post-sale support that protect your customer

HOW WE WORK

How we bring vendors to market

From signed line card to recurring revenue, one accountable partner.

Onboard

Sign the vendor, set commercial terms, and map the addressable channel.

Enable

Train partners, certify presales engineers, and stock inventory.

Generate Demand

Build pipeline through partner marketing, events, and account mapping.

Fulfil

Handle import, logistics, and post-sale support to close the loop.

Grow

Expand into new accounts and markets on the vendor's behalf.

WHAT WE DELIVER

Consultancy services

Independent advisory backed by years of experience.

Architecture

Enterprise ecosystem design and roadmap creation.

Tech refresh

Lifecycle planning and migration for ageing infrastructure.

Cloud adoption

Migration strategy, workload assessment, and cloud landing zone.

Cyber security

Risk assessment, security architecture, and control implementation.

Standards auditing

Compliance and standards audit.

AI adoption

Readiness assessment and roadmap creation for enterprise AI.
